

## **UN5550 INTRODUCTION TO DATA SCIENCE**

### **Case Presentation Instructions**

#### **Presentations**

**Objective:** Presentations allow students to practice public speaking skills and to use software tools appropriately.

Slides should be printed (Handouts format, 3-slides per page format) and submitted to the instructors BEFORE the presentation begins. (Recommend 2 copies.)

Presentations will take no more than 20 minutes (including the Q&A portion). Everyone on the team should contribute to the presentation. You should use PowerPoint or some other electronic presentation application.

#### **Presentation Content:**

1. Define the problem – identify the goals and objectives of the case project
2. Explain the process your team used to address the problem
3. Share your solution/conclusions
4. Describe any lessons learned – impressions of the process and things you might have done differently to improve the outcome
5. Questions & Answers
